

## ▲ TRANSPORT, LOGISTICS AND STORAGE

### POST STILLAGE

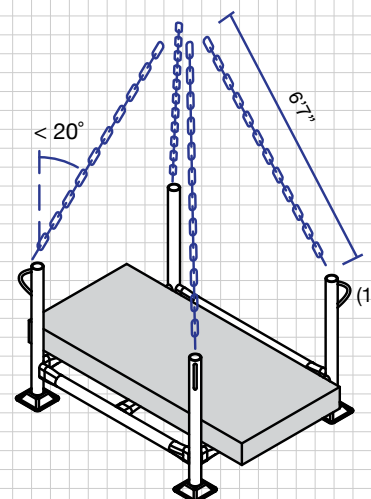

PART NO 981120. Max load 1763.7 lb.

The logistics at a construction site can be a constraint, and therefore edge protection must be available at site when and where needed. The products are delivered in stackable pallets that minimize the need of space. The stackable Stillages can be lifted with forklift or straps.

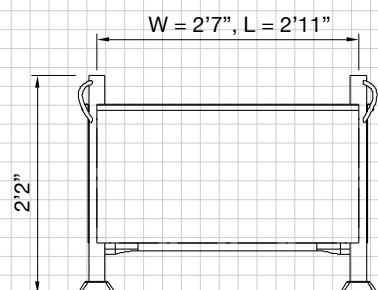

### Lifting

Use a four-party chain with safety hook or equivalent. The load should be properly fastened before lifting. Please make sure to follow your local regulations and lifting instructions.

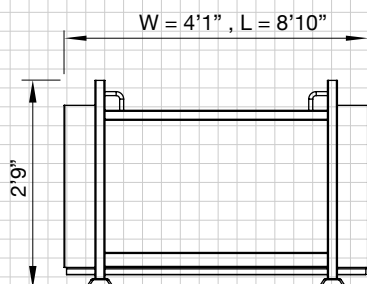

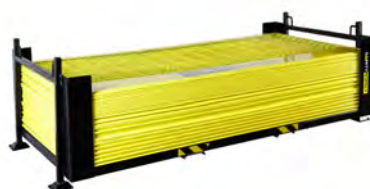

### BOX STILLAGE

PART NO 981130. Max load 1763.7 lb.

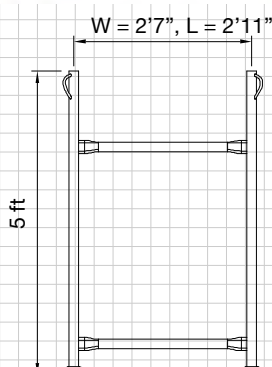

### BARRIER STILLAGE 2,6 L

PART NO 981109. Max load 1763.7 lb.

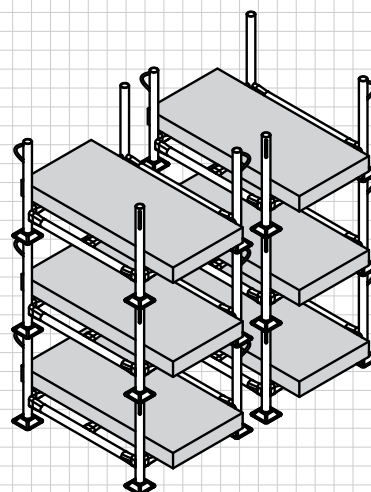

### BARRIER STILLAGE VERTICAL

PART NO 981111. Max load 1763.7 lb.

### Storage

Stackable Stillages.
